

Weddings

I just love photographing weddings! They are joyous occasions and probably the most important day of your life so far. It's a great privilege to be a part of a couples wedding day

Through careful planning and attention to detail beforehand, I will ensure that your wedding photography is something that you will treasure forever without taking over your day.

Each wedding is unique and therefore specialise in modern contemporary

photography tailored to clients individual needs.

Portraiture is an important part of my wedding service. As well as portraits on the day, all couples receive a complimentary portrait sitting—a great way to get used to each other ahead of the big day and for you to see if you like what I do!
